Sudip Shil

Full-stack Developer

About me

As a full-stack software developer, I have a passion for creating software solutions that delight businesses and individuals alike. I have a solid foundation in both frontend and backend development, which enables me to build powerful and elegant applications from scratch.

Experience

2022 - Present

Robotics Technologies - Full-stack Developer

I have an experience of programming languages and frameworks, such as PHP, Laravel, JavaScript and more. I keep myself updated with the latest developments and innovations in the software industry and am always keen to explore and adopt new technologies.

2021 - 2022

Sleepkart LLP - PHP Developer

As a PHP developer, I have enjoyed creating dynamic and interactive web applications using various frameworks and technologies. I have also learned how to write clean, secure and maintainable code that follows best practices and industry standards.

2019 - 2020

Visva Bharati - Project Fellow

Started Project under DST Purse Project Fellowship

Education

2016 - 2018

Visva Bharati - M.Sc in Computer Science

2013 - 2016

The University of Burdwan- B.Sc in Computer Science

2011 - 2013
